

HIGH PERFORMANCE - SUPER ADHESIVE GREASE

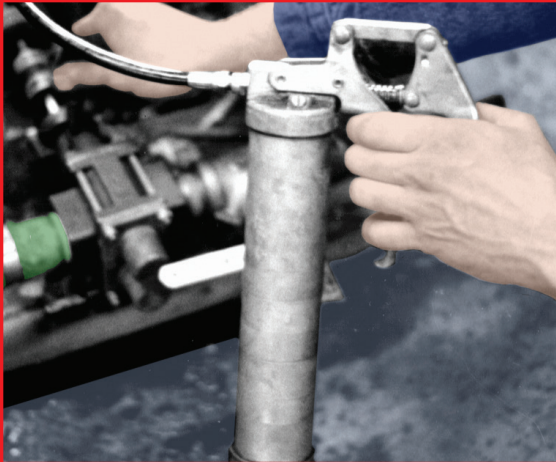

STRONG ARM

SUPERIOR ADDITIVE PACKAGE = SUPERIOR LUBRICATION

STRONG ARM is a Multi-Purpose Grease fortified with special additives which enable it to maintain superior lubrication under adverse conditions over a longer period of time than normal greases. It protects & lubricates effectively in continuous temperatures ranges of 0°F- 550°F. **STRONG ARM** is recommended for use on industrial, automotive, construction, farm, mining, marine equipment & machinery.

STRONG ARM gives superior lubrication, so equipment and parts operate more efficiently. More efficient operation means that equipment will last longer with less downtime & maintenance expense.

STRONG ARM's superior features keep it where it is needed even under adverse working conditions. This means that the intervals between lubricating can be extended, reducing total lubrication & labor expense.
